Important Disclosures

This document contains forward-looking statements. Forward-looking statements include, but are not limited to, statements regarding the Company's management's expectations, hopes, beliefs, intentions or strategies regarding the future and other statements that are other than statements of historical fact. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words "anticipate", "believe", "continue", "could", "estimate", "expect", "intend", "may", "might", "plan", "possible", "potential", "predict", "project", "should", "would" and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. These statements are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in the Company's records and other data available from third parties. Although management believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond the Company's control, the Company cannot assure you that it will achieve or accomplish these expectations, beliefs or projections. Actual results may differ materially from those expressed or implied by such forward-looking statements.

Factors that could cause actual results to differ materially from those discussed in the forward-looking statements include, but are not limited to: changes in shipping industry trends, including charter rates, vessel values and factors affecting vessel supply and demand; changes in seaborne and other transportation patterns; changes in the supply of or demand for dry bulk commodities, including dry bulk commodities carried by sea, generally or in particular regions; changes in the number of new buildings under construction in the dry bulk shipping industry; changes in the useful lives and the value of the Company's vessels and the related impact on the Company's compliance with loan covenants; the aging of the Company's fleet and increases in operating costs; the Company's ability to achieve successful utilization of its expanded fleet; changes in the Company's ability to complete acquisitions or dispositions; risks related to the Company's business strategy, areas of possible expansion or expected capital spending or operating expenses; changes to the Company's financial condition and liquidity, including its ability to pay amounts that it owes and obtain additional financing to fund capital expenditures, acquisitions and other general corporate activities; changes in the availability of crew, number of off-hire days, classification survey requirements and insurance costs for the vessels in the Company's fleet; changes in the Company's ability to leverage the relationships and reputation in the dry bulk shipping industry of its managers; changes in the Company's relationships with its contract counterparties, including the failure of any of its contract counterparties to comply with their agreements with the Company; loss of our customers, charters or vessels; damage to the Company's vessels; potential liability from future litigation and incidents involving the Company's vessels; the Company's future operating or financial results; the Company's ability to continue as a going concern; acts of terrorism and other hostilities; changes in global and regional economic and political conditions; risks associated with operations outside the United States; changes in governmental rules and regulations or actions taken by regulatory authorities, particularly with respect to the dry bulk shipping industry; and other factors listed from time to time in the Company's filings with the SEC, including its most recent annual report on Form 20-F. These factors could cause actual results or developments to differ materially from those expressed in any of the forward-looking statements. Consequently, there can be no assurance that actual results or developments anticipated in this document will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, the Company. Given these uncertainties, you are cautioned not to place undue reliance on such forward-looking statements. Except to the extent required by law, the Company expressly disclaims any obligations or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the Company's expectations with respect thereto or any change in events, conditions or circumstances on which any statement is based.

While all the information in this document is believed to be accurate, the Company makes no warranty, express or implied as to the completeness or accuracy of such information, nor can it accept responsibility for errors appearing in the document. Certain information contained herein has been provided by third parties and has not been independently verified, and the Company does not represent or endorse the accuracy or reliability of any such information. This document is subject to revisions and amendments without notice by the Company and without obligation to notify any recipient of any such amendment.

The Company undertakes no obligation to publicly update or revise any forward-looking statement contained in this presentation, whether as a result of new information, future events or otherwise, except as required by law. In light of the risks, uncertainties and assumptions, the forward-looking events discussed in this presentation might not occur, and the Company's actual results could differ materially from those anticipated in these forward-looking statements. The Company has filed a registration statement (including a prospectus) with the US Securities and Exchange Commission (the "SEC") for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents that the Company has filed with the SEC for more complete information about the company. You may get these documents for free by visiting EDGAR on the SEC website at www.sec.gov.

<ul style="list-style-type: none"> 2015: Acquired first Capesize vessel, followed by 5 Capesize vessels and 2 Supramax vessels 2015: Raised \$179m in secured debt 2016: Acquired 2 Korean built Capesize vessels at market lows 2016: Raised \$25.5m through public equity offerings and \$38m in secured debt 2017: Acquired 1 Korean built Capesize vessel 2017: Raised additional public equity & secured debt and re-financed \$39.5m in debt at a significant discount 	<ul style="list-style-type: none"> 2018: Refinanced \$48m in debt through \$70m of bank debt and leasing transactions 2018: Sold two Supramax vessels and acquired a Capesize vessel becoming the only US-listed Capesize pure-play company 2018: Worked with major charterers to install scrubbers on 50% of the fleet 2019: Implementation of scrubber installation program in partnership with major dry-bulk charterers 2019: Raised \$20.5m through public offering and private placements 	<ul style="list-style-type: none"> Raised ~\$100m in public offerings recapitalizing the balance sheet Refinanced \$179m in debt, including senior, junior loans and convertible notes Debt reduction of \$36m Acquired one Japanese built Capesize vessel at historic low point in market Increased period employment and index-linked chartering exposure 	<ul style="list-style-type: none"> Acquired seven Japanese built Capesize vessels and sold oldest vessel of the fleet Raised ~\$75m through public equity offering New financing and refinancing transactions of \$149.2m Ten new time-charter employment agreements with world-renowned charterers Completed buyback plan of \$16.6m and implemented new buyback plan of \$10.0m Executing on ESG agenda and preparing for the new regulatory environment Awarded Greek Dry-Bulk Shipping Company of the year by Lloyds List

**Ship acquisitions between 2015 and 2021 totaling ~ \$475 million -
~ \$193 million in 2021**

Experienced Leadership

Stamatis Tsantanis
Chairman & CEO

- 23+ years successful track record in shipping and finance
- Leading Seanergy since 2012
- Extensive experience with shipping transactions on NYSE and NASDAQ
- Raised more than \$2.5 billion in equity and secured and unsecured debt
- Significant experience in developing strategic relationships
- Track record in building notable shipping companies (public and private)
- BSc and MSc in Shipping and Fellow of Institute of Chartered Shipbrokers

Stavros Gyftakis
Chief Financial Officer

- 16+ years of experience in shipping and banking
- Instrumental in Seanergy’s capital raising, debt financing and refinancing activities since 2017
- Held key positions across a broad shipping finance spectrum, including, asset backed lending, debt and corporate restructurings, risk management and financial syndications
- Participated in the structuring of 100+ shipping finance transactions and in numerous restructurings involving public and private shipping companies
- Two Masters degrees in Business Mathematics and Shipping, Trade and Finance

**Board
Directors**

- Five board members, four of whom are non-executive directors
- Aggregate 100+ years of relevant shipping experience
- Significant combined experience in ship owning and management, ship-financing, financial consulting and auditing, as well as dry bulk commodities and freight trading

Solid ESG Commitment

Environmental

- Reduces shipping emissions cost-effectively through advanced technical & operational measures
- Successfully completed the evaluation of the **EEXI** in accordance with IMO's MEPC 75
- Entire fleet is expected to remain compliant with applicable **GHG regulatory requirements until 2030** with minimal investment outlay
- Commencing **bio-fuel trials** in cooperation with leading charterers and operators
- Installed **electronic performance monitoring systems** and route optimization since 2016
- Concluded the first **sustainability-linked loan** with a leading European bank
- Partnered with **DeepSea** for the installation of **AI performance systems** with proven benefit on fuel consumption saving
- First Greek dry bulk company to perform a **feasibility study evaluating alternative fuels** (LNG vs HFO vs Compliant fuel), **scrubber installation** since 2015
- Signatory to the **Call to Action for Shipping Decarbonization**, a task force convened by the **Getting To Zero Coalition**
- Members of the **Decarbonisation committee** of RINA Classification Society

Social

- Signatory to the **Neptune Declaration** on Seafarer Wellbeing
- **Increased victualing fee** to one of the **highest** levels globally
- Cooperation with **IMEQ** (Innovative Maritime Emotional Intelligence Centre)
- Cooperation with **"Future Care Services"** 24 hours medical support to crew, psychological support and direct assistance
- **Medical Insurance** for Crew onboard and **broadband internet** on all our ships

Corporate Governance

- **No Related Party in Commercial & Technical Management**
- **Board Independence:** Four independent Directors (80% of Board composition)
- **Big Four for Audit and SOX consulting services:** Audited by EY since 2012 & appointed PwC in 2021 as consultants to perform SOX s404 readiness assessment
- **Transparent shareholder structure**

Financial Summary

<i>In thousands except daily figures</i>	3Q2020	3Q2021	3Q2021 vs 3Q2020
--	--------	--------	---------------------

Fleet Data:

Operating days	973	1,439	48%
Fleet utilization	99.8%	97.4%	
TCE Rate	\$16,219	\$30,764	90%
Daily Vessel OPEX	\$5,984	\$5,865	-2%

Income Statement Highlights:

Net Revenue	\$19,651	\$48,179	145%
Net Income (Loss)	\$3,592	\$20,064	459%
EBITDA	\$12,723	\$30,114	137%
Adjusted EBITDA	\$7,809	\$32,171	312%

	3Q 2020	3Q 2021
--	----------------	----------------

Balance Sheet Highlights:

Cash & Restricted Cash	\$23,651	\$52,560
Vessels, Net	\$256,737	\$396,792
Long-term debt	\$169,762	\$204,639
Total Equity	\$95,694	\$222,251

1. Fleet utilization is the percentage of time that the vessels are generating revenue and is determined by dividing operating days by ownership days for the relevant period.

2. Time Charter Equivalent (TCE) rate is defined as our net revenue less voyage expenses during a period divided by the number of our operating days during the period. Voyage expenses include port charges, bunker (fuel oil and diesel oil) expenses, canal charges and other commissions. We include TCE rate, a non-GAAP measure, as we believe it provides additional meaningful information in conjunction with net revenues from vessels, the most directly comparable US GAAP measure, and because it assists our management in making decisions regarding the deployment and use of our vessels and in evaluating their financial performance. Our calculation of TCE rate may not be comparable to that reported by other companies.

3. Net Revenue after deducting commissions

4. Earnings before interest, taxes, depreciation and amortization ("EBITDA") represents the sum of net income/(loss), interest and finance costs, interest income, depreciation and amortization and, if any, income taxes during a period. Includes arrangement fees and various deferred charges and excludes all convertible promissory notes

seanergy

03 Analysis of Market Fundamentals

Historical Favorable Demand & Supply Fundamentals

- Global Infrastructure projects and **government stimuli** creating broad industrial demand growth
- **Iron Ore:** Brazilian Iron Ore exports -the main source of iron ore trade demand- on track to grow 6.2% and 6.1% in 2021 and 2022, respectively
- **Coal:** World Seaborne Trade on track to grow 6.2% and 1.9% annually in 2021 and 2022, respectively
- Newbuilding orderbook is 6% of the fleet, lowest in 25 years at least
- Net Cape fleet growth forecast of only 3.6% and 1.0% in 2021 and 2022, respectively
- Evolving environmental regulations further constrain ordering over technology uncertainty long-term
- Expected strong supply squeeze in shipping capacity

Iron Ore and Coal Cargo Evolution

The background of the slide is an aerial photograph of a modern, multi-story office building with a white facade and large glass windows. The building is situated in an urban area with other buildings visible in the background. The sky is a mix of orange and yellow, indicating a sunset or sunrise. The sun is low on the horizon, casting a warm glow over the scene. The building has a flat roof with some mechanical equipment visible. The overall atmosphere is professional and modern.

Unique & Innovative Approach to Scrubbers

Vessel Name	Year Built	Daily Time Charter Rate	Charterer	Charter Start	Firm Period
Championship	2011	Index-Linked	Cargill	4Q 2018	5 years
Partnership	2012	Index-Linked	European Utility Co.	3Q 2019	3 years
Lordship	2010	Index-Linked	European Utility Co.	3Q 2019	3 years
Premiership	2010	Index-Linked	Major Commodity Trading Co.	4Q 2019	3 years
Squireship	2010	Index-Linked	Major Commodity Trading Co.	4Q 2019	3 years
Knightship	2010	Index-Linked	Major Commodity Trading Co.	2Q 2020	3 years

- Scrubber installation on 6 vessels with 3 first class charterers, on the back of index-linked time charters with firm periods ranging from 3 to 5 years in duration. On 3 of the agreements Seanergy has the option to fix the daily rate at the prevailing level of the Forward Freight Agreement (FFA) of the Baltic Capesize Index.
- Seanergy **entitled to profit-sharing** based on the price difference between high-sulphur and low-sulphur fuel.
- The sale and leaseback transaction with Cargill that entails the scrubber financing element was awarded as the “Most Innovative Deal of 2018” by Marine Money
- Ensured compliance with IMO-2020 rules, without speculating on market uncertainties that are exogenous to the dry bulk market such as the fuel price spread and availability of high-sulphur fuel

Approx. \$20 million enhancement in the market value of the Fleet, without any investment outlay by SHIP

Scrubber Fitted Vessels

Installed scrubbers have been tested successfully and have the capacity to comply with the stricter 0.1% sulphur fuel content limit applicable in Environmentally Controlled Areas.

Additionally, two of the recently acquired vessels are scrubber fitted.
