Important Disclosures

This document contains forward-looking statements. Forward-looking statements include, but are not limited to, statements regarding the Company's management's expectations, hopes, beliefs, intentions or strategies regarding the future and other statements that are other than statements of historical fact, including with respect to market trends, vessels we have agreed to acquire and pending litigation. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words "anticipate", "believe", "continue", "could", "estimate", "expect", "intend", "may", "might", "plan", "possible", "potential", "predict", "project", "should", "would" and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. These statements are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in the Company's records and other data available from third parties. Although management believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond the Company's control, the Company cannot assure you that it will achieve or accomplish these expectations, beliefs or projections. Actual results may differ materially from those expressed or implied by such forward-looking statements.

Factors that could cause actual results to differ materially from those discussed in the forward-looking statements include, but are not limited to: the Company's operating or financial results; the Company's liquidity, including its ability to service its indebtedness; competitive factors in the market in which the Company operates; shipping industry trends, including charter rates, vessel values and factors affecting vessel supply and demand; future, pending or recent acquisitions and dispositions, business strategy, impacts of litigation, areas of possible expansion or contraction, and expected capital spending or operating expenses; risks associated with operations outside the United States; broader market impacts arising from war (or threatened war) or international hostilities, such as between Russia and Ukraine; risks associated with the length and severity of pandemics (including COVID-19), including effects on demand for dry bulk products and the transportation thereof; and other factors listed from time to time in the Company's filings with the SEC, including its most recent annual report on Form 20-F. These factors could cause actual results or developments to differ materially from those expressed in any of the forward-looking statements. Consequently, there can be no assurance that actual results or developments anticipated in this document will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, the Company. Given these uncertainties, you are cautioned not to place undue reliance on such forward-looking statements. Except to the extent required by law, the Company expressly disclaims any obligations or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the Company's expectations with respect thereto or any change in events, conditions or circumstances on which any statement is based.

Certain financial information and data contained in this presentation is unaudited and does not conform to generally accepted accounting principles ("GAAP") or to Securities and Exchange Commission Regulations. We may also from time to time make forward-looking statements in our periodic reports that we will furnish to or file with the Securities and Exchange Commission, in other information sent to our security holders, and in other written materials. We caution that assumptions, expectations, projections, intentions and beliefs about future events may and often do vary from actual results and the differences can be material. This presentation includes certain estimated financial information and forecasts that are not derived in accordance with GAAP. The Company believes that the presentation of these non-GAAP measures provides information that is useful to the Company's shareholders as they indicate the ability of Seanergy, to meet capital expenditures, working capital requirements and other obligations.

While all the information in this document is believed to be accurate, the Company makes no warranty, express or implied as to the completeness or accuracy of such information, nor can it accept responsibility for errors appearing in the document. Certain information contained herein has been provided by third parties and has not been independently verified, and the Company does not represent or endorse the accuracy or reliability of any such information. This document is subject to revisions and amendments without notice by the Company and without obligation to notify any recipient of any such amendment.

Company Profile

Experienced Leadership

Seanergy is empowered by seasoned leadership, navigating the company with expertise and vision

Stamatis Tsantanis, *Chairman & CEO*

- CEO of Seanergy since 2012; Chairman since 2013
- Led Seanergy's significant growth to a prominent pure-play Capesize dry bulk company with a carrying capacity of approximately 3.4 million dwt
- 27+ years of experience in shipping, banking and capital markets
- Former investment banker at Alpha Finance with a key role in major shipping corporate finance transactions in the U.S. capital markets

Stavros Gyftakis, *CFO*

- CFO of Seanergy since 2018
- Instrumental in Seanergy's capital raising, debt financing and refinancing activities since 2017
- 19+ years of experience in the shipping finance industry holding key positions across a broad shipping finance spectrum, including asset backed lending, debt and corporate restructurings, risk management and loan syndications
- Former Senior Vice President in the Greek shipping finance desk at DVB Bank SE

Board of Directors

Qualified BoD Members

- Five board members, four of whom are non-executive directors
- Aggregate 100+ years of relevant shipping experience
- Significant combined experience in ship owning and management, ship-financing, financial consulting and auditing, as well as dry bulk commodities and freight trading

Our ESG Strategy in Action

In Seanergy, we are committed to driving sustainable growth through responsible practices

Environment

Pioneering Greek Shipping Company: The first Greek-based shipping company to establish a key partnership with major industry stakeholders under the EU funded SAFeCRAFT project, aiming to revolutionize the use of alternative fuels for existing vessels.

Multiple ESG Awards: Honored with two Gold Technology Awards, a Silver Industry Partnership Leadership Award and a Bronze Climate Change Award at the ESG Shipping Awards International since 2023.

Bio-fuel Trials: Initiating bio-fuel trials in collaboration with leading charterers and operators.

Commitment to Decarbonization: About 50% of our vessels are fitted with scrubber equipment, that limits SOx emissions. We are also Signatory to the Call to Action for Shipping Decarbonization.

Social

Best Workplace: For the third consecutive year, we are the only shipping company in Greece to be recognized as a “Best Workplace” by Great Place To Work® Hellas in our employee category. Also, Seanergy was recognized as a “Best Workplace for Women” in 2025.

CSR Recognition: Honored with the Silver Award by the Corporate Responsibility Institute.

Educational Support: Supporting the next generation of shipping professionals through the “SEANERGY Scholarship”.

Seafarer Wellbeing & Health: Providing one of the highest victualing fees globally, as well as broadband internet access on all our ships. Medical Insurance for crew onboard & 24/7 psychological, medical support and direct assistance.

Inclusive Workplace: Promoting diversity, equal opportunities, and human rights for all within an inclusive workplace.

Governance

Transparent Shareholder Structure: Ensuring clarity and openness in shareholder arrangements with strong board independence (80% independent board members).

Corporate Structure: No Related Parties involved in Commercial & Technical Management.

“Big Four” Auditing: Audited by EY from 2015 to 2021 & Deloitte from 2022 onwards.

Sustainability Committee: Established a dedicated committee to oversee and enhance sustainability initiatives.

ESG Reporting: Annual ESG report is externally assured to maintain accuracy and reliability.

Corporate Strategy

Strategic Direction

In Seanergy, we are dedicated to charting the path to future success by focusing on strategic priorities that drive sustainable growth and innovation

Strategic Partnerships & Fleet Efficiency

- ✓ Continued focus on maintaining 100% charter coverage across the fleet with existing and potential new tier 1 charter counterparties
- ✓ Continue fleet modernization through acquisition of modern high-quality tonnage and gradual divestment of older tonnage
- ✓ Ensure operational uptime remains close to 100% through strong collaborations between in-house and 3rd party technical managers
- ✓ Investing in optimization of the current fleet: AI-driven voyage optimization, engine performance monitoring, and hull fouling diagnostics

90% Fleet Growth

Since 2020

Enhancing Shareholder Returns

- ✓ Full implementation of our dividend policy distributing a significant part of our operating cashflow with transparency and simplicity
- ✓ Declared a dividend of 5 cents for the first quarter of 2025, bringing our total dividend distributions to \$2.26 per share, or \$43.1 million in total.
- ✓ Additional share buybacks when market conditions are appropriate through our active share buyback plan of ~\$20.0 million.
- ✓ We remain committed to delivering long-term value and capital efficiency through strategic execution, with a continued focus on maximizing shareholder returns.

\$88.3 million

In shareholders returns since Q4 2021

Capital Structure & Financial Efficiency

- ✓ Conservative leverage levels to ensure financial flexibility through the cycles
- ✓ Continuous deleveraging through secured debt amortization
- ✓ Improving credit margins - latest loans and leases agreed at ~210bps
- ✓ New financings since beginning of 2024 of ~\$209 million, improving the overall debt structure.

Net LTV < 50%

Financial policy target

Leading Charterer Ties & Effective Commercial Strategy

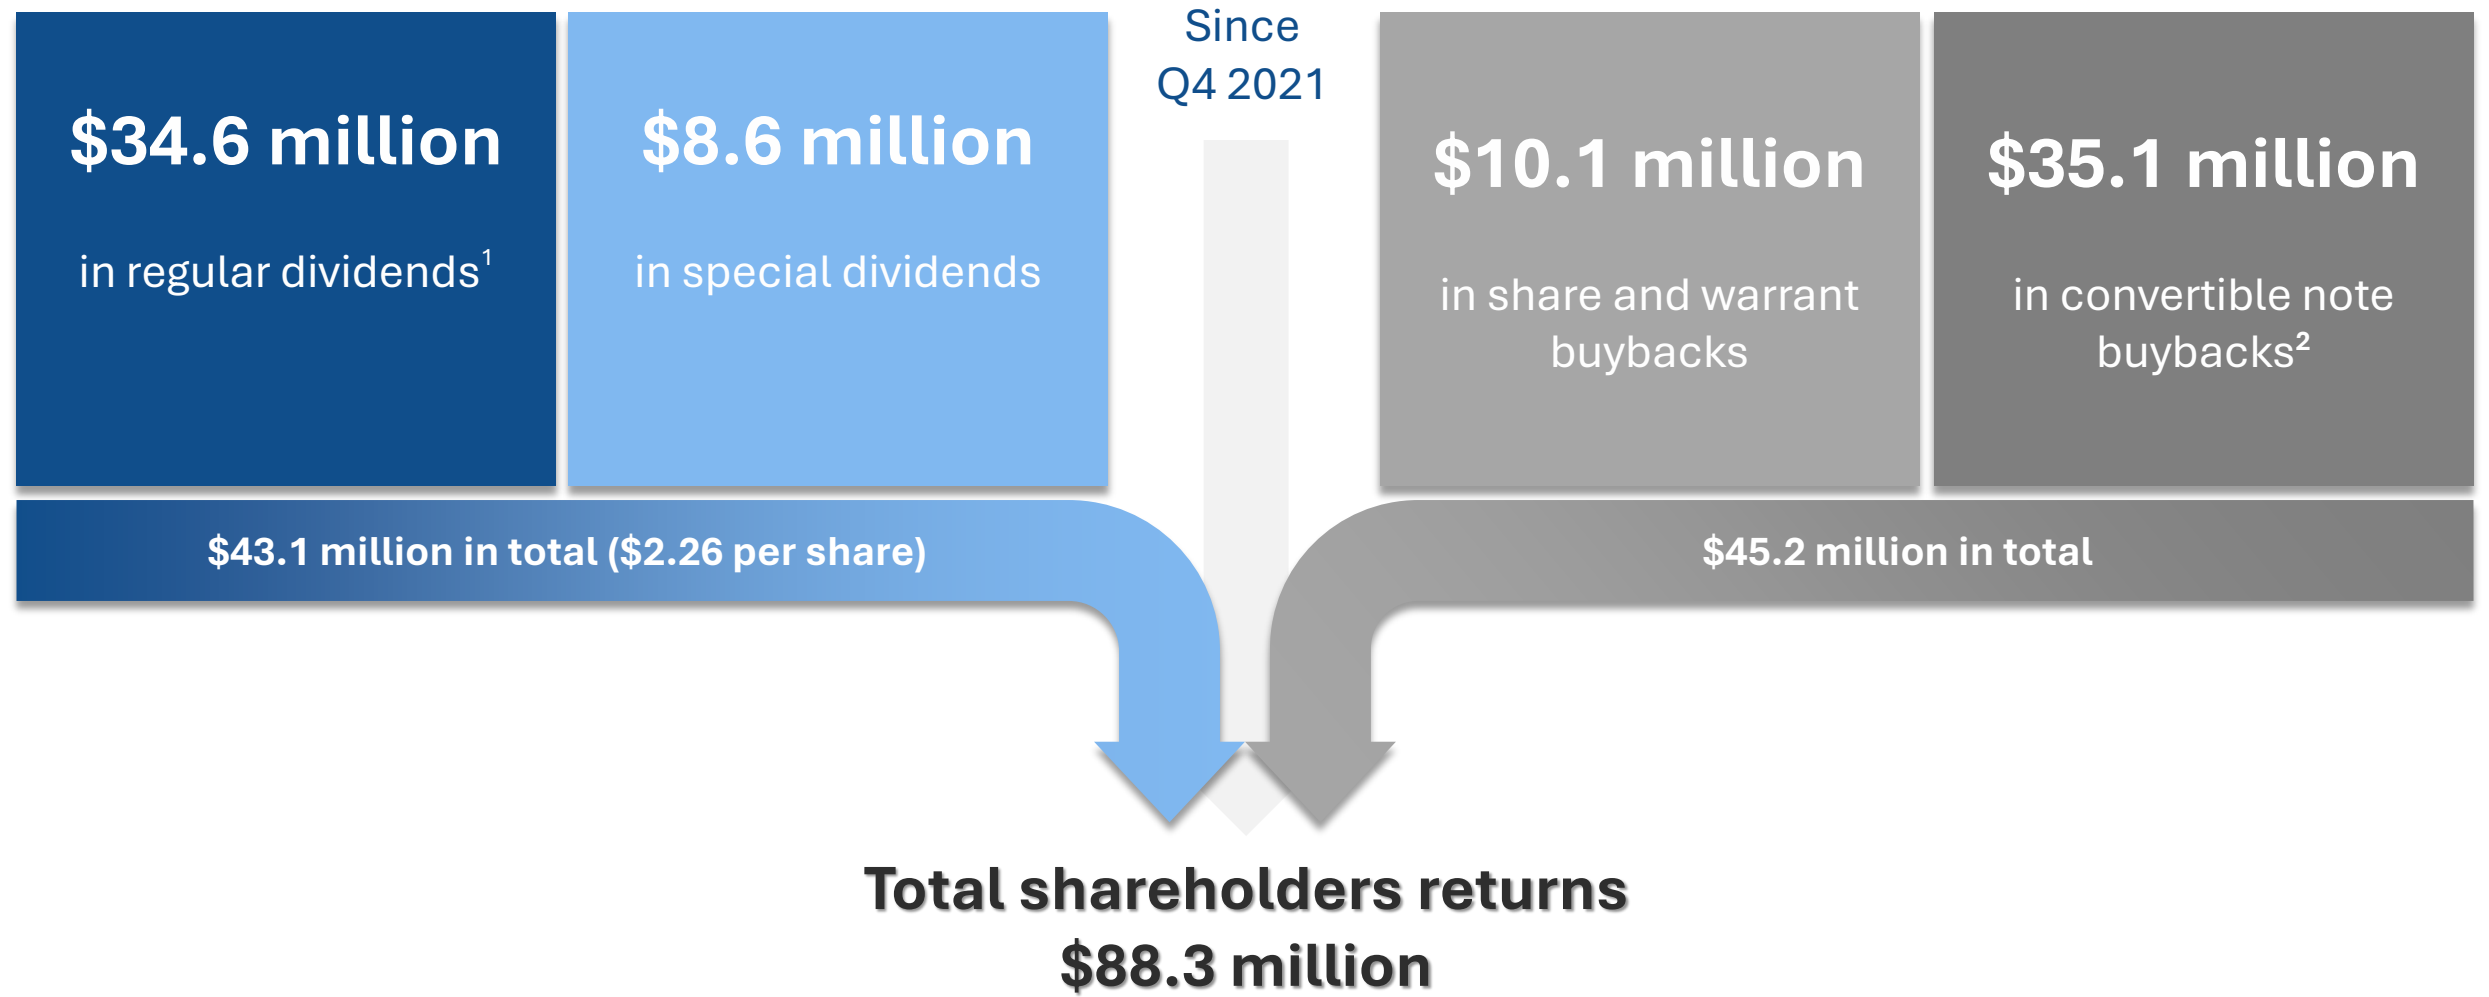

Seanergy enjoys market recognition as a quality and reliable operator and holds strong relationships with world leading charterers

-  Seanergy has been structured around the needs of our chartering partners
-  Our diverse customer base includes the world's major miners, traders and operators
-  100% fixed in index-linked period T/Cs, giving access to attractive market fundamentals
-  Option to convert variable T/C rate to fixed based on prevailing FFA curve for almost all our fleet
-  Partnered with charterers on structured projects (scrubber & ESDs installations, biofuel testing, SLBs)

Prioritizing Shareholder Returns

We are committed in effective capital allocation to maximize long-term shareholder value

1. Including the \$1.1 million declared, but not paid yet, for Q1 2025
2. Excluding the \$3.6 million conversion of notes exercised by the note holder

Financings & Debt Optimization

Strengthening our balance sheet through disciplined deleveraging and smart capital structure management.

	Bank / Capital Provider	Amount Outstanding (\$ million)	Vessels
Loan Facilities	 ALPHA BANK	\$46.3	Dukeship, Paroship, Titanship
	 Piraeus  Sustainability-linked Loan	\$53.6	Worldship, Honorship, Meiship
	 DANISH SHIP FINANCE  Sustainability-linked Loan	\$26.2	Championship, Premiership, Fellowship

	 Hinode Kaiun	\$26.5	Kaizenship
	 中国华融 CHINA HUARONG	\$34.5	Squireship, Friendship
		\$300.0	Total outstanding debt as of 31/03/2025

1. Based on Clarksons Research May 2025 data
2. Calculated by dividing our senior loans, finance lease liability, and other financial liabilities by the market value of the fleet plus the cash & cash equiv. (including restricted cash and time deposits)
3. Based on 3rd party broker (Simpson Spence and Young) valuations, senior loans, finance lease liability, and other financial liabilities as of end of each calendar year.

Financials & KPIs

Financials

Maintaining solid financial fundamentals with a focus on resilience and value creation

Amounts in thousand \$ except daily figures	Q1 2025
---	---------

Fleet Data

Operating days	1,713
Fleet utilization ¹	96.3%
TCE Rate²	\$13,403
Daily Vessel OPEX	\$6,629

Income Statement Highlights

Net Revenue ³	\$24,206
Net Income (Loss)	(\$6,829)
Adjusted Net Income ⁴	(\$5,452)
EBITDA ⁵	\$6,590
Adjusted EBITDA ⁴	\$7,995

Balance Sheet Highlights

March 31, 2025

Cash & Cash Equivalents ⁶	\$30,900
Vessels, Net ⁷	\$546,883
Long-term debt ⁸	\$318,728
Total Equity	\$254,788

1. Fleet utilization is the percentage of time that the vessels are generating revenue and is determined by dividing operating days by ownership days for the relevant period.

2. Time Charter Equivalent (TCE) rate is defined as our net revenue less voyage expenses during a period divided by the number of our operating days during the period. Voyage expenses include port charges, bunker (fuel oil and diesel oil) expenses, canal charges and other commissions. We include TCE rate, a non-GAAP measure, as we believe it provides additional meaningful information in conjunction with net revenues from vessels, the most directly comparable US GAAP measure, and because it assists our management in making decisions regarding the deployment and use of our vessels and in evaluating their financial performance. Our calculation of TCE rate may not be comparable to that reported by other companies.

3. Net Revenue after deducting commissions

4. Adjusted EBITDA and adjusted net income are non-GAAP measures. Non-cash items such as stock-based compensation and loss/(gain) on debt refinancing are excluded from EBITDA and net income respectively in order to derive to these metrics.

5. Earnings before interest, taxes, depreciation and amortization ("EBITDA") represents the sum of net income/(loss), interest and finance costs, interest income, depreciation and amortization and, if any, income taxes during a period. Includes arrangement fees and various deferred charges and excludes all convertible promissory notes, if any.

6. Cash and cash equivalents including restricted cash and term deposits

7. Vessels and right-of-use assets, net and advances for vessels' acquisitions

8. Long-term debt, lease liability and other financial liabilities, net of deferred finance costs

Solid historical financial performance

Showcasing financial discipline and operational efficiency through various market cycles, highlighting our competitive edge in the dry bulk stock sector.

Adj. EBITDA

Net leverage ratio¹

1. Net Leverage Ratio is defined as total debt minus cash and cash equivalents (including restricted cash and time deposits), divided by Adj. EBITDA

Book Value per DWT (\$)

FY 2024

Return on Equity (ROE)

Market Fundamentals

Resilient Demand for Capes

Supported by resilient dry bulk trade flows and growth in ton-miles

- **Increased Atlantic Basin Cargoes:** More cargoes from the Atlantic basin heading to Asian destinations will drive Capesize demand, resulting in longer sailing times and requiring more tonnage.
- **West Africa Bauxite Exports:** An expected increase of about 20 million tons in 2025 due to rising aluminum demand and improved local export logistics.
- **Iron Ore Exports:** Higher ton-miles over the next years, driven by Brazilian mining expansion, with additional growth anticipated from the Simandou mining project in West Africa starting in 2026.
- **Coal Demand in China:** China's coal imports rose 14.4% in 2024 due to insufficient domestic supply. Despite inventory restocking volatility seaborne trade is expected to remain at high levels in the years ahead driven by energy demand growth.

Limited Fleet Growth

Record low orderbook and limited newbuilding activity shape a healthy framework for Capesize sector

- **Limited Fleet Growth:** Effective Capesize fleet growth is expected to be around 1.7% on average in 2025 and 2026, with net fleet growth potentially dropping to ~1% by 2025 due to a heavy drydocking schedule and low order book levels.
- **Newbuilding Orders:** Very few projects have been initiated this year, and only about 40 newbuildings are expected to be delivered (or already have been delivered) in 2025, making 2024 and 2025 the lowest delivery years since around 2003.
- **Environmental Regulations:** Upcoming environmental regulations are likely to restrict fleet growth further, increase the need for fleet replacement, and maintain historically low vessel speeds.
